Ahmed Waleed **Sayeed**

01110332447 | Ahmedwaleedsay13@gmail.com | github.com/AhmedWaleedSayeed.

Objective

Have the opportunity to work in the field of network management and security to increase my knowledge and learn new technologies. Also along the way I would like to gain experience in the field of data analysis and software development.

Education   **Bachelor Degree in Computer Science**

Misr International University (MIU)
July 2020 GPA: 2.30

Thanawya Amma
zahrat el madaen school
June 2015 Grade: 77.8%

Graduation Project   **Cyberbullying Detection on Social Media**

Description: This project aims to exhibit the application of Geoinformation as a tool for improving the tourism sector by identifying the location of tourist facilities, Services and wildlife habitat locations in order to demonstrate them in a map so that tourists are well informed and directed in what to see and where to go. Project Deliverables:

- Proposal Document
- Software requirement specification
- Software design description
- Final thesis

Tools:

- Pycharm, Microsoft Azure and Android Studio

Coursework

Courses	
Software Programming	
	Software Engineering
	Algorithms Analysis and Design II
	Algorithms Analysis and Design I
	Web Development
	Data Structures and Algorithms
	Object Oriented Programming
Networks	
	Computer Networks II
	Computer Networks I
Operating System	
	Operating Systems II
	Operating Systems I
Artificial Intelligence	
	Machine Learning
	Artificial Intelligence

Projects

Project	Description	Tools	Role in Team
Hotel Management system	This web-based system helps hotels to improve tourism system in booking rooms & Service .	JavaScript, PHP, SQL, HTML and CSS	Team Member
Shopping cart mobile app	This is a mobile application that you can use to scan product to buy it without waiting to pay cash	Java, XML and SQL	Team Leader
Social media Website	This web application used to facilitate the creation or sharing of information, ideas, career interests and other forms of expression via virtual communities and networks.	JavaScript, PHP and SQL, HTML and CSS	Team Leader
SMS Spam	This project used to detect spam messages using machine learning	Python	Team Member
Book Reservation System	This system is used to make a reservation at a library	Java	Team Leader

Skills

Technical Skills		
Skill Category	**Skill Item**	**Skill Level**
Programming Languages		
	C++	Professional
	Java	Professional
	Python	Professional
	PHP	Professional
Web Tools		
	HTML	Professional
	JavaScript	Professional
	CSS	Intermediate
	XML	Intermediate
	JSON	Intermediate
Platforms		
	Windows 7,8,10	Professional
	Debian Linux	Intermediate
IDEs		
	Jupyter Notebook	Intermediate
	Pycharm	Professional
	NetBeans	Professional
	Microsoft Visual Studio	Professional
	Android Studio	Professional
	PhpStorm	Professional
DBMS		
	mySQL	Professional

Certificates

Certificates	
EMC Academic Associate, Information Storage and Management Certificate	

Hobbies

- Reading books
- Keeping up with latest technologies

Personal Skills

- Fast learner
- Communication skills
- Ability to work in Teams
- Self learning skills

Personal Info

- Date of Birth: March 8, 1997
- Nationality: Egyptian
- Military Status: Postponed

Languages

Language	
Arabic	Fluent
English	Fluent
French	Bad
